

**Footprint 2023**  
 Scope 1: 86,7 ton  
 Scope 2: 44 ton  
 Business travel: 23,5 ton  
**Total: 154 ton CO2**

**Sustainable ideas?  
 Share them with the  
 management!** 

- Clarksons will reduce its emissions by:
- Purchasing 100% green electricity
  - Using green electricity at Heli Haven
  - Replacing diesel trucks with electric models
  - Transitioning fossil fuel vehicles to electric versions
  - Enhancing building sustainability
  - Installing solar panels

Clarkson Port Services has obtained N3. The CO2 Performance Ladder is an instrument that helps organisations reduce their carbon emissions in the organisation, in projects and in the business sector. The instrument is used as both a CO2 management system as well as a procurement tool.
